Human Resources & Special Programs  
Title IX Coordinator

October 20, 2021

Dear parent/guardian of Moberly School District student,

We are sending this as a reminder regarding Moberly School District's medication policy and procedure for students.

*Medication should be given at home whenever possible. Please refer to your student handbook for more information, policies and procedures for the administration of medication at school. The administration of medication must be approved by the school nurse. A medication form must be completed, signed and returned to the school nurse by a parent or guardian.*

A few key points:

- Students may not possess or self administer medications while on school grounds unless it is a life saving medication with a physician, parent and school authorization.
- A parent or guardian must transport all medication to the school nurse and sign a Medication Administration Consent Form.
- All medication must be stored in the original manufactured container with instructions and expiration date.
- Per federal regulations, all prescription medication must be labeled with the prescription label, including the medication administration instructions and be brought to school nurse or health aide in the container provided by the pharmacy.
